PERSONAL PROJECTS

Food E-Commerce Website (React Js)

- As a Front-End Developer for a dynamic food e-commerce website, I played a key role in crafting engaging and user-friendly interfaces using React.
- Designed and implemented an engaging user interface, ensuring seamless navigation and an appealing visual experience.
- Incorporated responsive design principles, optimizing the website for various devices and screen sizes.
- I collaborated with cross-functional teams to translate design concepts into responsive and visually appealing web pages, ensuring seamless interactions for users.
- Through a focus on performance optimization and responsive design principles, I successfully delivered a smooth and visually cohesive front-end experience for our food e-commerce platform.

Educational Website

- During my professional journey, I actively contributed to the development of an Educational Website, providing a comprehensive online learning platform. This project focused on delivering high-quality educational content and fostering interactive learning experiences.
- Designed and implemented an intuitive user interface, ensuring ease of navigation and an engaging learning environment.
- Integrated multimedia elements, such as videos, quizzes, and interactive modules, to enhance content delivery and user engagement.
